## EKATERINA MIRLENKO

### Frontend Developer

A dedicated Frontend Developer with over 2 years of hands-on experience and proficiency in JavaScript, TypeScript, HTML, CSS, React, Next.js and Vue.js, continuously expanding my knowledge. Driven to broaden my expertise, I aspire to obtain a Full-Stack Developer's qualifications, contribute to innovative impactful projects and grow within a team that values curiosity and has a supportive work environment.

## WORK EXPERIENCE

### Frontend Developer

Dachnik company / remote, volunteering

[Dachnik](#) – is a house construction company.

March 2023 – Present

- Engage in the creation and enhancement of dynamic, user-friendly interfaces using Typescript, Next.js and Vanilla Extract CSS.
- Collaborate with the Backend Developer to integrate frontend interfaces with server-side applications and RESTful APIs, ensuring seamless data flow and functionality.
- Optimize the website for search engines (SEO) to enhance user engagement and conversion rates, aligning the frontend development with overall marketing goals.

### Frontend Developer

RestMonster startup project / remote, volunteering

[RestMonster](#) – is a modular platform for small businesses. It provides the management of clients, orders and delivery.

September 2023 – February 2024

- Collaborated with a Senior Frontend Developer to design and implement user interfaces for both Admin and Client websites, using Vue.js (v3.2 & v2.6), JavaScript, and Bootstrap.
- Integrated Vue.js with REST APIs to display and update real-time data. Utilized Vue Router for dynamic routing and Vuex for state management to handle more complex features, ensuring application scalability and performance.
- Enhanced user experience by continuous manual testing and resolving possible errors.
- Continuously pursued self-improvement through [Frontend Learning courses](#), expanding knowledge of best practices in Vue.js and modern frontend development.

### Professional development –

### Frontend Development Education

September 2022 – Present

- Completed various learning courses in JavaScript, TypeScript, React, Vue.js, Next.js, and Node.js. I learned to work with CSS frameworks, like Bootstrap, Chakra UI and Ant-Design.
- Actively engaged in practical learning to apply theoretical knowledge in real-world scenarios.

### Maternity Leave

Full-time parenting and relocation to Oslo, Norway.

April 2021 – August 2022

### IT Project Manager

Ubertas Group – Twigtech / Melbourne, Australia, remote, full-time

[Twigtech](#) – is a property management software. Multitool app for management, maintenance and accounting for real estate in Australia.

May 2020 – March 2021

- Led a team of 8 developers responsible for the implementation, support, and infrastructure of payment and cash management solutions within the Twigtech project, ensuring accurate financial calculations related to property payments and delivering the project on time.
- Coordinated debugging process and tracked task fixes with manual QA that accelerated the speed of development.
- Accomplished Junior Frontend tasks(React.js) helping the team with minor tasks.
- Created internal technical documentation and educational content as the [User Guide](#) and Product How-to-Use videos.
- Integrated Scrum into existing workflow, leading to improved sprint planning and quicker adaptation to changes.

### Digital Marketing Specialist

Semrush Inc.| St.Petersburg, Russia, on-site, full-time

[Semrush](#) – is an online visibility management SaaS platform that has been used by over 10,000,000 marketers worldwide.

July 2018 – April 2019

- Made HTML&CSS layouts of e-mails and increased the engagement of new users to 10%.
- Collaborated with marketing teams to help develop new growth ideas, marketing strategies and updated teams on trends.
- Continuous A/B testing led to the increase of CTR of weekly digest campaigns by 15%.
